

RENICK MILLWORKS
—
Antique Flooring, Beams & Millwork

QUALITY IS A FAMILY TRADITION

.....
We are a family-based company, born out of generations of craftsmen. We scour the country seeking antique wood in disused barns and other historic structures. We transform these scattered remnants of time-worn craftsmanship into elegant floors, beams and millwork. We pride ourselves in offering the finest and most unique materials for your project. At Renick Millworks, the quest for quality has no finish line.

RECLAIMED & WIDE PLANK FLOORING

At Renick Millworks, we seek out one-of-a-kind antique wood, remnants of a bygone era, to transform into unique-beautiful reclaimed wood products. Our reclaimed antique wood floors, mantels and beams have adorned thousands of elegant homes and businesses across the US. By reusing antique wood, we offer beautiful and unique wood floors without straining our world's forests. All of our floors are available with the FSC® Chain-of-Custody certification so you can be assured your purchase helps support responsible forestry.

— ANTIQUE HERITAGE OAK —

Our reclaimed American Heritage Oak is harder and more stable than new mill run oak flooring. The patina naturally varies from a dark, time-aged brown to a lighter color that is more reminiscent of newly-sawn wood. This floor is ideal for homeowners seeking an antique floor without looking “too rustic.” The surface features nail holes and worm tracks that can only be found in reclaimed wood. Reclaimed oak is one of our most popular floors. The majority of our antique oak comes from historic barns and structures found along Appalachian Mountain region

Plank Width: 3” to 12” | **Plank Thickness:** 3/4” | **Plank Lengths:** 2’ to 10’ | **Milled Profile:** End-Matched, T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Cert., Ex. Wide

— HEIRLOOM CHESTNUT —

Our American Heirloom Wormy Chestnut is a rare floor with an unusual story. The American Chestnut tree was virtually eradicated by a blight introduced in the early 20th century. As a result, American Chestnut is only available in limited quantities by reclaiming the wood from existing structures. The wood for this floor is found primarily in old barns in the Allegheny Mountain region. Every year, less and less of this antique wood is available for reclaiming.

This floor features a prominent grain pattern and dark, aged patina, but its the blackened nail holes and frequent worm tracks adorning the wood that complete the rustic charm of this antique floor.

Plank Width: 3" to 10" | **Plank Thickness:** 3/4" | **Plank Lengths:** 1.5' to 10' | **Milled Profile:** End-Match., T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Certified

— SETTLER'S PLANK OAK —

Our Settler's Plank reclaimed oak is our most rustic grade of flooring. We cut every oak timber we reclaim to preserve the original saw marks and collect these texture-rich boards into one beautiful antique grade. This reclaimed oak floor has been a popular choice for cafes, ski lodges, cabins and private lofts. The distressed texture and colorful patina create a rich, warm floor that is a great addition to any unique space. The possibilities are endless.

Plank Width: 3" to 10" | **Plank Thickness:** 3/4" | **Plank Lengths:** 1.5' to 10' | **Milled Profile:** End-Match., T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Certified

— ANTIQUE HEART PINE —

Reclaimed Antique Heart Pine has been a staple of the American building profession for centuries. Massive heart pine beams were used to construct factories, mills and warehouses built in the mid-to-late 19th century. Due to its popularity as a building material, this once abundant species, is now virtually impossible to find in modern forests. We mill antique heart pine flooring from beams recovered from historic buildings found along the East Coast.

We can grade our heart pine to your preferred style. Our character-rich heart pine flooring is cut from the outer edge of the beam and features looser growth rings, large knots and frequent nail holes. We can also offer clean, vertical grain heart pine flooring, cut from the very center of the beam, that is virtually free of knots a nail holes.

Plank Width: 3" to 10" | **Plank Thickness:** 3/4" | **Plank Lengths:** 1.5' to 10' | **Milled Profile:** End-Matched, T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Cert., Ex. Wide

— DISTRESSED HEART PINE —

Renick Millwork's distressed heart pine flooring is for those who love the time-worn beauty of reclaimed wood. Our Distressed Heart Pine weaves together natural and man-made elements to form a texture-rich floor that is unlike any other. This wood features a naturally deep patina that is accentuated by raised growth rings, soft worn spots, nail holes and original sawmarks that were created over a century ago when the beams from which these boards were cut were first crafted.

All of our heart pine is ideal for flooring, paneling and cabinetry.

Plank Width: 3" to 10" | **Plank Thickness:** 3/4" | **Plank Lengths:** 1.5' to 10' | **Milled Profile:** End-Matched, T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Cert., Ex. Wide

— WIDE PLANK RED & WHITE OAK —

Our wide plank oak flooring is one of our most versatile products. It's ideal for both those wishing for a clean, simple floor or those dreaming of a custom experience. We offer both red and white oak floors in character and select grades. The neutral color and clean grain pattern make oak an ideal candidate for custom color staining. Our in-house pre-finishing can transform traditional oak into one-of-a-kind masterpieces. We also offer texturing such as scraped bevels and wire-brushing for further customization.

Plank Width: 3" to 12" | **Plank Thickness:** 3/4" | **Plank Lengths:** 2' to 10' | **Milled Profile:** End-Matched, T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Cert., Ex. Wide

— WIDE PLANK HICKORY —

Renick Millwork's Wide Plank Hickory is a floor with many faces. It can be stained dark and paired with a heavy hand scrape or sanded smooth and finished with a clear coat to showcase the light wood and dramatic color variations. This wood is made even more attractive by its natural hardness. Hickory is a harder and more durable wood than both red and white oak, making it ideal for families with children or pets.

Plank Width: 3" to 10" | **Plank Thickness:** 3/4" | **Plank Lengths:** 2' to 10' | **Milled Profile:** End-Matched, T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Cert.

— WIDE PLANK WALNUT —

Renick Millwork's Wide Plank Walnut is naturally dark wood that is sure to draw the eye. The warm tone and deep color sets it apart from all other woods. Popular in kitchens, bathrooms and living rooms, this floor helps make family and public spaces feel beautiful and inviting.

Plank Width: 3" to 10" | **Plank Thickness:** 3/4" | **Plank Lengths:** 2' to 10' | **Milled Profile:** End-Matched, T&G | **Available:** Prefin., Engineered, Solid Wood, FSC Cert.
